# Remote access to voicemail box

1.    Call your number and wait for voicemail box to be activated.

2.    Press star (*), the operator will ask for the voicemail box number.

3.    Enter your own phone number (voicemail number)

4.    The operator will ask for the password (1234 if you haven't changed it).

5.    You'll then have access to your voicemail box.

6.    Options are the same as at home
